Report Title: Community Plan Template and Identification of Long Term Plan Priority Projects

1. EXECUTIVE SUMMARY

Every three years Council must prepare and adopt a Long Term Plan (LTP). The purpose of the LTP is to set the budgets and projects for the next 10 years.

Through this process, Council would like to give our communities the opportunity to think about projects that could be considered for funding through the LTP.

Ideally these should be projects that support the community vision and the issues within the community that need to be addressed. For this reason, and to ensure that Community Boards and Community Committees take ownership for developing community-level plans, Council staff have developed a simple one-page template for assisting Community Boards and Committees for developing their respective community plans and coming up with projects that can be considered through the LTP.

2. RECOMMENDATION

THAT the report from the General Manager Strategy & Support be received;

AND THAT the Community Board develops its community plan and identifies key projects to give effect to the plan and for consideration through Council’s Long Term Plan process by using the template provided.

AND FURTHER THAT the completed community plan template be submitted to Council’s Corporate Planner by 31 March 2017.
3. **Background**

Every three years Council must prepare and adopt a Long Term Plan (LTP). The purpose of the LTP is to set the budgets and projects for the next 10 years.

Community Boards and Committees are also required to develop community plans. Some Community Boards and Committees already have these but some need to be reviewed.

Council is also cognisant of the time it can take for Community Boards and Committees to develop a community plan the last time (often up to a year). To help make the process more efficient and less resource-intensive and to ensure that the projects in the community plan are also considered for funding through Council’s LTP, staff have developed a simple one page community plan template for use by Community Boards and Committees.

This template is to be used for the Community Board/Committee to firm up its vision for the community, identify key issues that are affecting the community and to come up with projects/initiatives to address these.

Since Council is not the only provider of services, it is conceivable that some community projects may be the responsibility of other government agencies (like the New Zealand Transport Agency (NZTA)). It is important therefore for all these to be listed in the community plan if it supports the vision for the community and addressing the issues afflicting it.

4. **Discussion and Analysis of Options**

4.1 **Discussion**

Through the LTP process Council will provide an opportunity for communities to submit community projects for consideration in the 2018-28 LTP. In order to streamline the process and ensure that projects relate to the vision for the community and address the issues afflicting it, a community plan template has been developed by Council staff. Through this, Community Boards/Committees can come up with projects that can be considered through the LTP process. The community plan (including associated projects) must be submitted to the Corporate Planner (melissa.russo@waidc.govt.nz) by 31 March 2017 using the community plan template that is attached to this report.

Following the submission of the community plan by the Community Board/Committee to the Corporate Planner, the projects will be considered by Council through the LTP process.

Staff will report back to the Community Boards/Committees on those projects that have received funding through the LTP process following its adoption in June 2018.

It is the responsibility of the Community Boards/Committees to engage with their communities on the projects they would like to be submitted for consideration through the LTP process.
5. **CONSIDERATION**

5.1 **FINANCIAL**

The financial impact of the priority projects will not be realised until the projects have received confirmation of funding from Council through the LTP process.

5.2 **LEGAL**

Council’s Long Term Plan is developed in accordance with requirements of the Local Government Act.

5.3 **STRATEGY, PLANS, POLICY AND PARTNERSHIP ALIGNMENT**

Projects derived from the community plan will be considered for inclusion in the Long Term Plan.

5.3 **ASSESSMENT OF SIGNIFICANCE AND ENGAGEMENT POLICY AND OF EXTERNAL STAKEHOLDERS**

<table>

</tr>
</tbody>

Tick the appropriate box/boxes and specify what it involves by providing a brief explanation of the tools which will be used to engage (refer to the project engagement plan if applicable).

Community Boards and Committees are being empowered to develop their community plans and to use this to identify projects for consideration in Council’s Long Term Plan 2018-2028.

Community engagement could also extend to the ‘empower’ level of engagement, if the community choose to deliver the project with little Council involvement.

State below which external stakeholders have been or will be engaged with:

It will be the responsibility of the Community Boards to engage with their communities on those projects that the community would like to submit for consideration.
6. **Conclusion**

Community Boards and Community Committees are to engage with their communities on those projects they would like to see delivered over the next three years as part of the development of their respective community plans. Community plan (with projects) must be submitted for consideration by Council alongside the LTP 2018-18 process by 31 March 2017.

Boat Ramps
A study is underway to assess use and upgrade requirements of district boat ramps. Part of this work has been a public survey process. This work will be used to inform funding required for this activity within the Long Term Plan 2018-28 to meet the needs of boat ramp users.

Natural Area Reserves Management Plan
Staff are currently gathering information on the District’s natural reserves to inform production of a management plan to govern their use, management and development. This is the next management plan that gives effect to the Parks Strategic Framework which was adopted by Council in 2014.

General Update
Recruitment continues to be an issue with vacancies in the Asset, Treatment and Operations teams.

The Operations team continue to be busy with out of hours calls for wastewater issues.

Procedures for all teams are currently being reviewed and updated as required.

The Continuous Improvement Programme Just Do Its are mostly complete with the exception of the Education Programme and Downers contract.

Good progress is being made on the Waters Treatment Plant renewals programme, the Asset condition assessment programme, district-wide water and wastewater modelling programme and the Raglan Inflow and Infiltration programme.

Waters staff are working closely with the Strategic Planning team on the District Plan Review to ensure positive infrastructure outcomes and in particular the inclusion of Low Impact Urban design for stormwater.

Report Title | Raglan Naturally

1. **EXECUTIVE SUMMARY**

The Interim Steering Group (ISG) of Raglan Naturally reported on progress at the Community Board November meeting.

The ISG can now further report that, following a presentation to the Raglan Chamber of Commerce, Stephanie Philps has been delegated by the Chamber of Commerce to join the group.

We also note that there has been an intention stated to incorporate the Tourism Action Plan under the Raglan Naturally Plan.

We further note that Mayor Allan Sanson has advised Community Boards to: “get up in a helicopter to look at what the community wanted”, and “…identify the projects you want to work on.” (Raglan Chronicle 17th Nov.)

In view of the abovementioned developments, the ISG recommend that the community board request that Council’s Economic Development Manager provide the Raglan Naturally Interim Steering Group with a briefing on Council’s Economic Development Strategy and Planning processes, to ensure the Raglan Plan fits with and complements the broad direction and requirements of Council strategies.

2. **RECOMMENDATION**

THAT the report from the Raglan Community Board Chairperson be received;

AND THAT the Raglan Community Board invites the Economic Development Manager to a meeting of the Interim Steering Group to provide a briefing on the Economic Development Strategy.

12. **ACTION PLAN**

**(TO BE COMPLETED BY RAGLAN GROUP)**

The following Action Plan outlines priorities and actions as a guide to collaboratively and cooperatively implementing the Plan.

One key consideration will be the availability and securing of resources to progress the implementation of the Plan in a timely manner. It may also be appropriate and necessary to involve other organisations and to seek funding for specific projects.

The Plan should not commit any organisation to the actions proposed but is a guide to pursuing priorities and actions which will make a positive difference to the achievement of the tourism objectives noted above.

The priority actions need to be assigned a KPI priority rating as a guide. These ratings are:

- **HIGH** within the first year
- **MEDIUM** within one to two years
- **LOW** within three years

The progress of the plan implementation should be undertaken every six months. This may result in revision and updating of the Plan. Regardless, a new plan should be prepared in three years.

**Note:**

*Carry forward the actions from earlier in this plan (Under Challenges, Opportunities, Capacity) into the following table and assign a priority rating and responsibility to each one. Where a budget is known, include this.*

All in favour

General Business:

Manu Bay Breakwater (Ken Barry):
- Raglan Sport Fishing Club (Ken Barry) presented response to Council re upgrade of
Manu Bay breakwater. Club believes the new breakwater performance is substandard and poses health and safety concerns. Club wants to modify breakwater to its previous standard (outlined in report). Furthermore, local rock was not sourced.

- Council Rep. (Alan Vink) noted there are differing views by user groups on the issue but according to council position, the product is certified and meets regulations and the issue is therefore concluded. Local rock was looked at but discounted based on expert opinion. Local iwi in Taumarunui where the rock was sourced did not wish to bless the rock. Alan suggested that if the Fishing Club is not happy they will need to go through the planning process 2017.
- Ross suggested the Fishing Club could undertake an external engineers valuation and present this to council which may hold more weight than layman opinion.
- This issue was aired by the Raglan Sport Fishing Club, challenged by the Council representative and discussed around the table.
- Not concluded.

Traffic Management, Wainui Reserve (Frank):
- Two judder bars have been placed to slow traffic - ineffective
- Boulders have been moved - more needed on corners
- Carpark at bottom gained 5 car parks - the design never cam to RCC as requested (see June minutes). Would like to meet with council rep. at next meeting to discuss plans.
- Gates still not being locked - should be locked every night. RCC could have a roster to lock gates.
- Cars/quad's are accessing beach via Riri Kereopa Drive and the campground. Suggested bollards to block access.

Soundsplash:
- RCC not informed - hasn’t approved anything.
- Issue posed by Frank - campers/cars parked at Wainui Reserve made access difficult for public not involved in Soundsplash - suggested no parking at bottom right-hand side of reserve.
- Angeline suggested inviting Soundsplash reps to discuss @ next RCC meeting - all approved - Karen asked to write invitation to Soundsplash reps to attend next meeting.

Surf n’ Turf:
- Council have been asked to increase number of surf schools at Manu Bay but disagree. They agree to renew the current contract but not more (Clint).
- Some members of RCC disagreed to playing favourites - either no commercial businesses allowed OR open to tender process and select from an even playing field.
- Clint will get planners to look at the issue and discuss at next meeting.

- The date has been changed to 20th, 21st and 22nd January 2016.
- The affected parties surrounding the Reserve have been spoken to and are signed off for the event.

- Times put on gates on our Reserves for when they will be closed.
- Sound Splash bus being put on from town to the reserve,
- A suggestion was made that concert goers park at the Rugby field and then onto buses. Naomi and Brian stated that if they do that they need to get another resource consent.
- Thursday is a set up day only, not as previously thought a camping day.
- Council is not to give out the phone numbers of the Reserve Advisory so we can be harassed
- Sound Splash to talk to Council about putting up an advertising sign on the Reserve.
- Motion that “Reserve Advisory Board agrees that the Sound Splash event takes place”

Raglan Surfing School (Charlie Young, Erin Rogers and Shelley Cooper)

Discussion took place on the following:

- Angeline shared her concerns on the erosion issues that are caused by large numbers of people using the one area.
- How many commercial activities does the Reserves Advisory want on Reserves?
- Raglan Surfing School have a contract with WDC from October 2016 to October 2017 so any new process will go forward from there.
- The Advisory Committee will take back to their own groups ideas for a tender process and come up with what requirements each group would require in such a document. These will be brought to the next meeting and discussed further.
- Charlie stated that his thoughts were that we had no need for a tender process as the present surf school has been a success for many years and it would seem like they are being targeted if such a tender process went ahead. He also stated that he would be really keen to answer any further questions and be involved in any discussions on the process.

Minutes of the meeting 10 October 2016 read.

Matters Arising:

Changes to Minutes:

- Angeline’s name followed by (Co-Chairperson).
- Friends of Wainui (point 1) should read “The paths bridges and signage are to be upgraded.
