

Report from Cr Main

Inclusion of Onewhero in Next Round Of Blueprint Meetings

Raised both verbally and in writing with Council

Awaiting their decision

(Nb this is in addition to the already planned meeting at Port Waikato)

Complaints about noise of fire brigade siren at Onewhero

Raised again and ongoing with Council

Waiting for confirmation of site meeting time

Onewhero Rubbish Collections

Inconsistency in quality and reliability of collections eg overfills and late collections. Being monitored by Pat Cronin

Port Waikato Community Hub

Construction progressing well

Roads

Unsealed network

Grader and roller combo producing better lasting result but taking longer to get better finish whereas Council are again aiming for economies of scale

Which is not ideal for unsealed roads in north as the majority are already tired

End of life and need ongoing maintenance to be sustained

HW22

Plans for rest stop on HW22. Preferred location either Glen Murray or Naike

Potential business opportunity for part time coffee cart ?
