RAGLAN NATURALLY

our community plan

Draft Plan April 2019
Acknowledgements

Raglan Naturally acknowledges our past and the people who have had a powerful influence on our community; our rangatira from this area who were signatories to the Treaty of Waitangi; those leading land activism; and more recently the grassroots, community-led initiatives that have transformed our community.

We also acknowledge the 2001 Raglan Naturally team who paved the way for our community planning. A huge thank you to all those who have been involved over the last two years as we have worked on this process.

To those who saw the value in celebrating the successes of Raglan Naturally, who initiated the revitalisation and created the framework to move forward:

Lisa Thomson, Kelly Clarkson/Murphy, Tony Mayow, Meredith Youngson, Di Jennings, Tim Duff, Deb King, Steve Soanes.

Current Raglan Naturally Team

Advisory Committee:
Anna Cunningham (Chair)(Whaingaroa Environment Centre), Denise Reynolds (Ngāti Māhanga/Hourua spokesperson), Gabrielle Parson (Project Coordinator) (Raglan Community Board), Heather Thomson (Ngāti Māhanga/Hourua representative), Karamea Puriri (Raglan Business Chamber), Lisa Thomson (Raglan Ward Councillor), Rangi Kereopa (Raglan Community Board) and Rolande Paekau (Poihākena Marae Committee).

Focus Group Coordinators:
John Lawson, Naomi Tuao, Brian Ruawai, Anna Cunningham, Tony Oosten, Meredith Youngson, Therese Boyle, Karamea Puriri, and Maki Nishiyama.

Working Group:
Gabrielle Parson (Project Coordinator), Anna Cunningham, Lisa Thomson, Sadra Saffari

Communications:
Sadra Saffari, Maki Nishiyama, Janine Jackson

We thank all those who have been part of the Focus Groups, the initial steering group, advisory committee, those who have provided technical expertise and those who supported the project coordinator as mentors. We appreciate the support and involvement from the wider community.

Thanks also to Waikato District Council and staff who have supported this process.

Thanks to the Department of Internal Affairs, Inspiring Communities, Community Waikato and First Principle for supporting us.

Many thanks to Lisa Thomson, our Ward Councillor, in connecting and facilitating engagement with iwi and hapū.

Huge acknowledgement to the representatives from hapū and iwi, Tainui (ki Whaingaroa), Poihākena Marae Committee, Ngāti Māhanga/Hourua, Ngāti Whakamarurangi who have contributed and guided us on this journey.

A big thank you to our funders and sponsors! Raglan Community Board, Waikato District Council, WEL Energy and Raglan Lions Club.

And to all those community members, businesses and groups in the community who have supported us through volunteer hours, expertise, conversations, use of meeting spaces, donating food for meetings and items for our promotional giveaways and delivery of community survey.

Dear Gabrielle,

Raglan Naturally Community Plan and Waikato District Council Blueprints

Waikato District Council (Council) has embarked on a journey to create Liveable, Thriving and Connected Communities. This new vision has brought about a greater focus on community planning at a local level, and as a result Local Area Blueprints have been created by Council for many of our communities. These are currently in a draft stage, with feedback closing 8 April and final versions expected to be approved by Council in June.

Over the past couple years, Raglan has also reviewed its existing Community Plan, known as “Raglan Naturally”. Council sees this work as complementing and augmenting the Local Area Blueprint, not duplicating or competing with it. Council acknowledges that a community driven approach to provide input to Council planning processes on matters that are important to Raglan is consistent with our desire for more inclusive engagement. True community led planning can result in better engagement from the wider community and greater ownership of the development and delivery of initiatives. We are therefore, fully supportive of the community based approach that Raglan Naturally are undertaking to review their Community Plan.

Council resourcing does not allow for us to complete a process as rigorous as the one being undertaken by Raglan Naturally to review their Community Plan, and not every community is able to undertake such a process itself. Raglan is fortunate and to be commended for its level of commitment and community involvement in the Raglan Naturally process.

Whilst recognising that Council will not always be the best organisation to lead some of the initiatives included in both the Local Area Blueprint or Raglan Naturally, there is an expectation that some of the initiatives from both plans will feed into the Council’s Long Term Plan 2021-31. In instances where initiatives included in Raglan Naturally are better led by other organisations or agencies, Council will provide support where possible to help achieve the desired outcomes for Raglan.

Regards,

Clive Morgan
General Manager Community Growth

ii. Survey demographic 37
The Raglan Naturally Community Plan is a document created by the community, for the community.

It is a celebration of Raglan’s unique character and culture - filled with ideas for action, goals and aspirations that will help to guide the community as it grows and evolves.

The original Raglan Naturally document was created in 2001, revisited in 2008, and in 2016, the Raglan Community Board held a Raglan Naturally Celebration to share what had been accomplished since the inception of the original plan and to announce a plan revitalisation.

Since 2016, new ideas, new goals and new aspirations have been diligently collected and collated from the community to create the pages of the following document – the first official draft of the 2019 Raglan Naturally Community Plan.

Inspired by the framework of the original 2001 Plan, approximately 60 local residents came together to create Focus Groups representing eleven specific areas of the community: Active Recreation, Arts, Business and Employment, Community Wellbeing, Destination and Visitor Management, Education, Infrastructure, Local Government and Planning, Natural Environment, Transport and Youth.

The Focus Groups utilised a core set of principles and values based on Te Tiriti o Waitangi, which laid the foundation on which the work would be done. Through facilitated workshops and many community consultations, the following Snapshots have been created.

We see the Raglan Naturally Community Plan as a living document, one that needs to evolve alongside the community, continue to offer a sense of direction for future development and influence the way we live, work and play in this place we call home.

This is your opportunity to review the work that has been done, share it with your whānau, friends and neighbours, to determine how you might contribute to the future work of Raglan Naturally and the growth of our community.

Key:
RN - Raglan Naturally
WDC - Waikato District Council
RCB - Raglan Community Board
How Raglan Naturally evolved

Many have contributed to the evolution of Raglan Naturally and the community-led planning process that has taken place over the last two and a half years. Much learning has happened along the way. Conversations have been opened. Relationships have been forming.

It started with the intention to:

- update our community plan, Raglan Naturally 2001
- guide the development of Raglan in a way that is consistent with local people’s aspirations
- involve the local community in ongoing planning and action

Through an inclusive, community-led approach, it has also evolved to include:

- Sharing stories
- Building relationships
- Understanding what we value
- Aligning aspirations and
- Setting a foundation for the way we work together.
- These things are an important part of a process that moves us towards deeper understanding and therefore helps us guide the development of Raglan, together.

This is ongoing work and we want to continue it:

- We see many of you value and support this!
- The Raglan Naturally approach to community planning is acknowledged as a unique initiative within our district. Along with iwi/hapū planning, it provides a whole picture perspective from the “ground-up” that can inform Council’s Blueprint planning process and guide strategy, development and decision making to achieve our community goals.
- We are working toward solid foundations built on shared community values and aspirations, and a flourishing relationship between the community and iwi and hapū – based on Te Tiriti o Waitangi. From this foundation all parties (community, iwi and hapū, local organisations and businesses, councils and central government) can come together and work towards cohesive and community-driven development of Raglan and our rural communities.
- The plan will continue to evolve and be a signpost for all who are connected to and supported by this place.
- There is still work to be done to agree on the role of Raglan Naturally going forward, and who is going to manage it. Lots of support and sound resourcing will be needed to ensure this work is sustainable and done really well.
What we are learning

Learn

*akona*

This work we are doing is pretty special. It is opening conversations, asking us to pause and reflect. It is giving space for us to connect on what is important to us, individually and collectively. It is reminding us of our strengths and what we do well.

We are learning that this is more than creating a list of projects that we ask council to do. This is more than looking at parking and potholes. This is about grounding ourselves in our connection with the environment and in our relationships with each other, in the stories and history of this place and choosing how we will move on from here, together.

Reflect

*whakaarotia*

Together we have asked and answered the questions of ‘what are our concerns’, ‘what’s changing’ and ‘where are we heading’. We are wondering how we can hold onto what’s important, the things we value as this place grows. We are wondering how we can face the big challenges ahead. We are wondering how we can be actively involved, understand and have a say in the planning and development for this place.

Contribute

*kōrerotia*

Through the contributions of so many local people in the Raglan Naturally process, our community vision is emerging. Further contributions will be needed as we create and enact our strategies to progress this vision. Whaingaroa has a strong history of individuals and community working actively, determinedly and innovatively. This place holds a supportive energy and there is much beauty to nourish us in our natural environment and in the care that we show for each other.

Take action

*kōkiritia*

We can take action, we have done it in the past and we are doing it now! Let’s keep the momentum up and get the support we need to continue our learning and thorough, forward-thinking, strategic planning. Let’s create a space for everyone to be involved – from our youth to our older people, to share their strengths and passions and to be acknowledged as a valued members of our community.

Create

*auahangia*

In a world where more than ever we need connection and to care for each other and the environment, let’s value what we are doing here as a community. Let’s continue this work together as we build strong foundations and community resilience.
What we did

Principles guiding our process

The Raglan Naturally project set out to build on the 2001 plan, revitalising it and strengthening the foundations for the way we plan for the future and work together here in Raglan. These principles guided the process:

- Deeper relationships and partnership with iwi and hapū
- Inclusion of the principles of Te Tiriti o Waitangi
- Strong environmental focus
- Community-led development – distributed leadership across different focus areas
- Inclusivity and collaboration
- Strength-based process
- Future-focused plan
- Relationship building – between community and councils
- Sustainability for Raglan Naturally – keeping it alive, relevant and active.

Project beginnings

Initial stages of the project were guided by an Interim Steering Group. A relationship was formed with WDC, funding was sourced to begin the process, and a project coordinator was appointed and endorsed by the Raglan Community Board. The project was taken to the community at a gathering at Poihākena Marae.

Mutual learning and sharing was fostered through various means including a Treaty of Waitangi workshop, sharing of local stories and a rangatahi/ Youth meeting at the Kokiri Centre. Focus Groups formed and a Raglan Naturally Committee was established. The project profile was raised through interaction with the community at:
- Creative Markets, Maui Dolphin Day, and the Music and Dance Festival, and communication maintained through a newsletter and Facebook page.

As the Project Plan was finalised, the Raglan Community Board agreed to hold overall project responsibility, and to formalise a permanent Raglan Naturally sub-committee.

A focus on information gathering

As the project progressed, eleven focus areas were identified: Natural Environment, Business, Destination and Visitor Management (Tourism), Infrastructure, Transport, Local Government & Planning, Arts, Education, Community Wellbeing, Active Recreation and Youth. WRAP (Whaingaroa Raglan Housing Affordability Project) are looking at Housing and we will work with them to integrate their findings into our community plan.

Focus Groups formed from community members who volunteered to draw together information on their topic, contributing their time, passion, expertise and diversity. Most groups had a coordinator, and focus groups met, attended workshops and connected with the wider community. In addition to workshops and meetings, many conversations have happened casually throughout the project and these have all contributed and helped shape this process.

Information was sought from the community to paint a picture of our current situation in each area – identifying strengths and assets, potential challenges and opportunities for the future, and our shared aspirations. These Snapshot Reports provided a starting point for the community-wide engagement phase. To see these full reports visit the Raglan Naturally website.

Taking it back to the community

Community-wide engagement occurred in the latter part of 2018, through a Raglan Naturally stall at local markets and events, community meetings at rural halls and face-to-face in the street or at the beach.

The work of the Focus Groups was then displayed at a community event held at the Raglan Town Hall in October 2018.

Over 200 community members visited, participated and contributed ideas to focus areas.

This was followed by a Community-Wide Survey. In November 2018 the Raglan Naturally community survey was completed by 370 of our 5700 population in the Raglan Ward. See appendix for a copy of the survey and information of who took part (age, ethnicities and communities). All responses were reviewed and summarised, by highlighting the common points made (see following pages). Some 1400 ideas came forward from the survey and the Town Hall event! We have sorted these into focus areas (see the Focus Group section, pages 20-32).

Please note: creating an accurate picture on each area is an ongoing task. Some subjects, voices, communities and groups may not be represented here. We are still gathering quantitative data and statistics to build on this work. At any stage we welcome input or interest to join a group. We envisage that Focus Groups will continue as a key element of the Raglan Naturally process.
**Raglan Naturally timeline**

**THE BEGINNING** a community steering group and WDC start work on our local plan

**Raglan Naturally 2008.** Original Raglan Naturally reviewed, intent summarised and relevance reaffirmed. Comprehensive project list produced.

**INTERIM STEERING GROUP** worked on foundations of the review process. Initiated new relationship with WDC. Community gathering at Pohākena Marae. Funding sourced to start.

**TREATY OF WAITANGI WORKSHOP.** Local stories shared. Focus Groups forming. Raglan Naturally Committee set up. Rangatahi/Youth meeting at Kokiri Centre.

**PROJECT PLAN FINALISED.** Raglan Community Board agrees to hold responsibility and have a permanent Raglan Naturally sub-committee.

**FOCUS GROUP WORKSHOPS,** Future Focus Workshop, Treaty of Waitangi Workshop. Youth Focus Group forms.

**Raglan Naturally – Community Wide Engagement.** Te Uku, Te Mata, Raglan Town Hall. Website launched. Survey for all residents in the Raglan Ward. Presentation to Council.

**Raglan Naturally 2019 Drafted**

---

**Raglan Naturally Community Plan 2001.** Key areas identified with project priorities for community infrastructure, + a roadmap for relationships and responsibilities.

**Raglan Naturally Celebration!** Time to revitalise our community plan.

**Project Coordinator Appointed** and endorsed by the Raglan Community Board: Gabrielle Parson.

**Getting Out In The Community** – Creative Markets, Maui Dolphin Day, Music and Dance Festival. Newsletter and Facebook page set up.

**11 Focus Groups Establish.** Approximately 60 people involved

**Focus Groups** work on Snapshot Reports. Raglan Naturally Committee works on Vision and Values and designing engagement

**Feedback** collated.
Who has been involved

Hundreds of people have been part of this process, including:

- Project Coordinator and Working Group
- Raglan Naturally Advisory Committee
- 11 Focus groups, most with a coordinator
- Communications team
- Technical expertise
- Raglan Community Board
- Waikato District Council and local Councillor
- Other supporters: Department of Internal Affairs, Inspiring Communities, Community Waikato, First Principle
- The Community!

This work has principally been done by community members volunteering their time, supported by a coordinator doing both paid and voluntary work.

An evolving and ongoing process

“Raglan Naturally is a way for our community to plan for the future, in ways that strengthen relationships and build partnerships, so that we can take action to ensure all of life in Whaingaroa thrives.”

— Purpose statement for Raglan Naturally.

This community plan document is only one result from the Raglan Naturally process. What is emerging underneath or ‘behind the scenes’ is a slower process of relationship building, growing partnerships with iwi and hapū and for many, a deepening sense of connection with this place, Whaingaroa.

Engaging people and taking the time to build strong foundations for the way we are as a community is a sound investment in future action.
A Snapshot of our community

Annual population growth
(growth over 5 year period to June 2018)

Age composition of the population
(growth over 5 year period to June 2018)

Languages spoken
After English, the next most common language spoken in Raglan is te reo Māori, which was spoken by 11.9% of people.

Our nationalities
(Demographic Data from 2013 Census)

- 1.3% Other
- 0.7% Middle Eastern, Latin American, African
- 2.4% Asian
- 2.8% Pacific Islander
- 27.3% Māori
- 81.1% NZ European
Iwi and hapū Engagement

When we embarked on this journey to revitalise Raglan Naturally we recognised that the voice of iwi and hapū were missing. Since then we have been actively working on our understanding of Te Tiriti o Waitangi and our relationship with iwi/hapū in a way that is inclusive and based on equity.

We know we have so much more to learn to better understand iwi/hapū issues and how we can support iwi/hapū and their aspirations, this is an ongoing process. Laying the foundations as a community on a treaty-based partnership with iwi/hapū, moves us toward greater wellbeing for all, more coherent development and reciprocal support.

Raglan Naturally are in consultation with iwi and hapū representatives from Tainui Awhiro, Ngāti Māhanga/Hourua and Ngāti Whakamarurangi with the view to engage with Ngāti Tamanuupo, to further develop an iwi and hapū chapter.

The content of this chapter will be determined by hapū/iwi to uphold tino rangatiratanga, the right to self determination for hapū/iwi in coalition with Raglan Naturally.

Background for this chapter

When we embarked on this journey to revitalise Raglan Naturally we recognised that the voice of iwi and hapū were missing. Since then we have been actively working on our understanding of Te Tiriti o Waitangi and our relationship with iwi/hapū in a way that is inclusive and based on equity.

We know we have so much more to learn to better understand iwi/hapū issues and how we can support iwi/hapū and their aspirations, this is an ongoing process. Laying the foundations as a community on a treaty-based partnership with iwi/hapū, moves us toward greater wellbeing for all, more coherent development and reciprocal support.

Raglan Naturally considers te Tiriti o Waitangi and our relationship with hapū as an integral part of our community plan. Raglan Naturally will:

- **RECOGNISE** our past and what has happened (right and wrong)
- **HONOUR** the past and keep it in mind/ keep telling the stories and continue to learn
- **ENABLE PARTICIPATION** actively support hapū with their aspirations and enable hapū to participate in discussions and in decision-making
- **WORK IN PARTNERSHIP** work alongside hapū for better outcomes for hapū and our community

Artwork by Simon Te Wheoro
What we heard
Survey Summary

Strengths in our community
- Community environmental awareness, care and action
- We are welcoming
- Caring, connected community, helping each other and volunteering.
- Friendly
- Diversity
- The people – communicating and sharing ideas.

"We pull together to support each other. We care about the environment - local and national - world wide; we love ‘our place’. Music, art and surfing cultures, Te Ao Māori."

Changes we have noticed here
- Increased visitor numbers
- Year round tourism
- Crowded surf
- Raglan is a lot busier
- More rubbish
- More money in town
- Increased population
- More places to eat
- More enviro initiatives
- Less parking
- Increased traffic – incl commuters
- Increased development especially residential
- Harder to find secure, affordable housing
- Growing sense of change and tension between old and new
- Frequent business changes
- More activities on water
- More petty crime

We feel concerned about
- Safety - incl theft and gangs
- Gentrification
- Housing – affordability, lack of rentals, long term tenure (people having to leave)
- Living costs
- Air BNB – regulation needed
- Growth and development – increased population and the impacts of that, growth too fast, increased development
- WDC need to work closely with us on strategic planning
- Lack of parking
- Roads – traffic, safety, one lane bridge
- Infrastructure – can it cope, sewage system, footpaths
- Concern for the natural environment and the impact of more people

Key Challenges
- Responding to growth and change
- Housing affordability and availability
- Infrastructure – increasing population and impact – parking and sewage
- Increasing numbers of tourists – particularly in Summer
- Losing Raglan Identity

This is what you as a community told us through the survey and town hall event. We are showing you the common points made.
What we love about this place – Raglan and rural communities

What would it look like if this place is thriving?

What we heard
Survey Summary

the Community – community spirit, strong, enviro ethos, diversity, safe and people - friendly, natural environment - beautiful, natural scenery, Karioi, bush, ruggedness, bush/walks, fresh air, native birds. Sea, surf, ocean, harbour, beach, water, beautiful coastline, general feeling - relaxed, quiet, peaceful, unique, laidback; Strong Māori cultural identity, Small town - size, community organisations - Xtreme and others

“I love how Raglan is one big whānau/family meaning we all support each other.”

“People are judged on who they are, not what they own.”

Values we could hold as we work together as a community

Caring, inclusiveness, guardianship, initiative, care of the land and the people

What would it look like if this place is thriving?

• Happy, smiling, friendly people
• Diverse community, caring, connected
• Working together to care for the natural environment
• CBD pedestrianized area, clean and tidy
• Employment for locals and youth, living wage.
• Affordable housing and places to rent.
• Te Ao Māori is thriving (te Reo Māori spoken + other ideas)

Key Opportunities

• To be led by our values and create solid foundations as we grow as a community.
• Leading and setting an example as a community, nationally and internationally.

“Being the sustainable capital of New Zealand, a beacon of hope and creativity.”

• Employment for locals and a balanced approach to tourism.
• Protecting our natural environment.
• Equity, safety and looking after those in need.

RESPECT

INCLUSIVITY

HONESTY, TRUST & INTEGRITY

KOTAHITANGA, UNITY, COLLABORATION, COOPERATION, TEAMWORK, WORKING TOGETHER

KAITIAKITANGA SUSTAINABILITY CARE, RESPECT & PROTECTION OF THE NATURAL ENVIRONMENT

MANAAKITANGA, CARE & SUPPORT

People are judged on who they are, not what they own.
Community Aspirations

This section brings together all of the aspirations that have been expressed by community members throughout this process. Building on the summary of results from the community-wide survey (presented elsewhere in this document), this section includes ideas gleaned from focus groups, the committee and working group, community engagements (e.g. town hall/rural hall meetings) and conversations.

These expressions speak to what people currently appreciate about Raglan as well as what “thriving community” might look like into the future, holding our values as well as our vision. The picture is emerging - as more voices are brought into this process these aspirations and values can grow and evolve.

OUR NATURAL ENVIRONMENT – natural scenery, fresh air and rugged landscape; Karioi maunga; our abundant biodiversity from shoreline, beaches, harbours to rivers, wetlands and bush; and our rich rural landscape

OUR COMMUNITY – is made up of our coastal township and rural communities. we are diverse and we value Iwi and hapū; Te Ao Māori is thriving and Te Reo Māori spoken; a safe and people-friendly place; a strong community spirit grounded firmly in a sound environmental ethos, with active and effective community organisations

THE CHARACTER – friendly, beautiful, laidback, welcoming, peaceful, vibrant and creative

OUR STRENGTHS our care for each other, our capacity and willingness to work together proactively to create change: communicating and sharing ideas, and volunteering to take action for the environment and community. Through these interactions, initiatives and groups, people form connections with our natural environment and with each other.

Values

Part of our Raglan Naturally process has been understanding our community values. We asked about values through our community-wide survey, and we also worked together through the committee and focus groups to be clear on our values. This is what emerged:

COMMUNITY SURVEY QUESTION:
WHAT VALUES WE COULD HOLD AS COMMUNITY AS WE WORK TOGETHER?
• Manaakitanga, care, support
• Kaitiakitanga, sustainability, care, respect and protection of the natural environment
• Kotahitanga, unity, collaboration, cooperation, teamwork, working together
• Respect
• Inclusivity
• Honesty, trust, integrity

VALUES DEVELOPED THROUGH RAGLAN NATURALLY COMMITTEE AND FOCUS GROUPS:
• Respect
• Equity
• Te Tiriti o Waitangi
• Kaitiakitanga
• Partnership
• Participation, inclusivity, diversity

Key opportunities

Building on our values and the unique character of our community, five key opportunities have emerged.

PROTECTING OUR NATURAL ENVIRONMENT
Education and awareness can help us to keep our natural environment rubbish-free, weed-free, pest-free, and plastic bag-free. We can plant trees, protect and restore habitats for native birds and animals, and take a bold stand on environmental issues.

LEADING AND SETTING AN EXAMPLE AS A COMMUNITY - NATIONALLY AND INTERNATIONALLY.
We can lead as an environmentally-conscious community and as New Zealand’s cleanest, greenest town, practising eco-tourism, zero waste and sustainability in all areas (business, living, tourism etc). We can find housing solutions and build resilience as we experience growth.

EMPLOYMENT FOR LOCALS AND HAVING A BALANCED APPROACH TO TOURISM.
We can create job opportunities for locals. Our unique attractions to visitors can provide benefits to everyone. Visitors can be educated about our place and they can contribute to our economy and to projects.

EQUITY, SAFETY AND LOOKING AFTER THOSE IN NEED
We can support one another and the organisations that are working in this area. Everyone can reach out to the lonely, look after each other. We can be connected through a thriving community that understands equity and that we all have a part in creating this.
Aspirations by theme

Several themes were apparent in the aspirations expressed through the Raglan Naturally process:

Our natural environment and community resilience

Our aspirations are...

YOUTH – young people have a strong voice in their future. They are supported with a dedicated youth space/hub and mentors. Their basic needs are met, including housing, education/training/apprenticeships, local employment, and health. They feel a connection with the community and are appreciated for who they are and what they have to offer. Youth have opportunities for participation in the arts and in inexpensive physical activities, fun and adventure.

WELLBEING – we are a safe and caring community, looking after those in need, from our children to our older people, the lonely, those with disabilities, on low income, or mental health issues – there is equity. A wellbeing hub fosters connections and support for those in need. Health is holistic, accessible and affordable.

HOUSING – we have homes, including tiny homes, affordable and social housing, and home-based visitor accommodation is managed to support the local housing needs.

LEARNING – we are a ‘learning community’ and much of this happens through mentoring and inter-generational learning. Children are immersed in their community through their education and there is support between our education centres and from the wider community. All our education centres are bi-lingual and bi-cultural. We have education and training for all ages in environment and sustainability, life skills and holistic wellbeing.

CREATIVITY – we promote and support growth in all creative industries. There is more music and public art. Through the arts we are able to communicate who we are as people and how ‘place’ influences our unique voice. Arts brings wellbeing, voice, uniqueness, social and cultural development.

We take ownership of and work together to protect and enhance our natural environment and wildlife, controlling pests and restoring bush and working to reduce pollution and improve biodiversity and water quality in our rivers, harbour and ocean.

We are managing our waste ecologically - an innovative, land-based wastewater system is part of a ‘circular economy’, we have an awesome zero-waste recycling system, use renewable resources and ensure our beaches and spaces are clean.

We have learned about climate change and are taking action to mitigate our impact and adapt to the effects on our community, such as sea-level rise.

Community gardens and food forests are the norm here. They bring people together and are building community resilience. We are exploring alternatives to work toward being more self-sufficient in energy.
Transport, recreation and CBD

We are involved in local decision making and in collaboration with the council have created a future-focused plan for transport and connectivity within and from outside Raglan. Through this we have more cycle and walkways, safe roads and footpaths to connect us to home, school, town and our beaches and reserves.

There are more buses (including a local shuttle bus) and less cars - we are biking more, and parking is no longer a problem here! We are healthier and more connected to the environment as a result.

These changes in transport support active recreation by creating added safety, accessibility and variety in our options.

Along with this we have developed indoor and outdoor recreation and sport facilities. We are proud of our clean and tidy town that has a beautiful pedestrian area in the CBD, encouraging all members of our community to connect.

Local art is featured around town and our signs are also in Te reo Māori.

A regular farmers market supports affordable, fresh, local food. Festivals, events and markets celebrate a diversity of nature, culture and produce.

Business, employment and tourism

Raglan is a thriving ‘ecosystem’ of sustainable businesses that support one another and are supported by the local community. Businesses uphold our community values and we are recognised as the eco-friendly heart of New Zealand. Our town is free of big chain stores and we have been able to maintain the ‘Raglan vibe’.

Commercial and materialistic values do not dominate here.

We have a balanced approach to tourism, with local interests at the forefront of visitor growth. Raglan is a leading example of responsible and sustainable tourism. We have a cohesive marketing message, focussed on sustainable tourism. Visitors are educated about our community and given opportunities to contribute.

Our locals and young people have training and employment opportunities and a living wage is the minimum.

Local participation in planning, decisions, and partnerships

Shared vision and goals – we connect with the aspirations and values that provide our commonality and motivate our action together, and we keep them fresh and alive.

Treaty partnerships - the community has learned much about the Te Tiriti o Waitangi in our local context, and space has been created for the stories of this place to be told. We are learning about te ao Māori, tikanga Māori and Te reo Māori (language, culture and the Māori world). This learning and sharing has laid the foundations of a strong partnership between iwi/ hapū and others in the community. We all come together around shared values and aspirations and we support each other’s planning and celebrate as dreams are realised.

Local participation and community-based development - through regular community engagement and sound locally-based processes, the community understands how local government and community planning can work together. We are a learning community, growing skills and leadership in community-led and strength-based development.

Rural communities are involved and feel connected to and supported by the Raglan community.

Community planning and well-managed growth – we lead the way as a forward-thinking, sustainable community, building resilience as we grow. We continue to work together with iwi and hapū to explore our visions and values for this place, supporting one another’s planning and aspirations. We develop cohesively in line with our community vision and values. Collaboration occurs between stakeholders/parties in planning and implementation. Local government works closely with us to support our community and align its plans with our own, providing continuity and ongoing support, in a spirit of true partnership.

We have planned for and created new spaces for our young people, for community coming together to connect, for public art and creative performance. Planning for new development, industry and infrastructure looks closely at the impact on our natural environment and ecology. We are confident that infrastructure is keeping up with growth.

We keep our community planning alive and relevant - including Raglan Naturally - and we are always taking action to make it happen!
Key Challenges

These themes have been recurring consistently throughout the Raglan Naturally revitalisation process – emerging as key challenges for our communities and in some cases as opportunities moving forward. These have been identified by the Raglan Naturally committee, in workshops, through community conversations, in Focus Groups and through community-wide consultation (including the survey).

- A relationship between hapū/iwi and the wider community that is based on the principles of Te Tiriti o Waitangi and is equitable and inclusive
- Responding to growth and change
- Impact of high visitor numbers
- Housing and affordability - being able to buy a home, rental availability and secure long-term tenure.
- More people coming to live here or wanting to live here and new housing developments
- Pressure on infrastructure; sewerage, one-lane car bridge, rubbish and parking.
- Impact on our environment.
- Loss of the ‘Raglan Identity’.
- Working actively and collaboratively with our young people.
- Taking care of our older people.
- Strategising in the face of climate change

This calls for well thought out, future-focused, strategic planning, with support from Waikato District Council and Waikato Regional Council

What we have been doing

- Two Treaty of Waitangi workshops and further community learning around the treaty in our local context.
- Future Focus Workshop. Some of these challenges were discussed and Focus Groups were encouraged to be aware of them as they created their Snapshot Reports.
- Focus Groups have explored these challenges in relation to their focus area and some challenges are directly related to Focus Areas. See Focus Group summary pages for aspirations and ideas for next steps and for more detail, and Focus Group Snapshot Reports (on our website).
- Working with our young people, to hear their voice and empower them to participate in decision making.
- Working towards well thought out, future-focused, strategic planning - our community plan is the first step! Building relationships within the community and with Waikato District Council. Working toward understanding the ‘Raglan Identity’ and what we value.

What we need to do next:

- Facilitate and support community learning (ie. Te Tiriti o Waitangi, Climate Change)
- Support community organisations and focus groups working in these areas (ie. WRAP with housing)
- Seek support from the Raglan Community Board and councils to first, ensure we understand these challenges and second, ensure that these are taken into account in all strategic planning.
- Support RN to bring our community planning to the Action Planning and Implementation phase, so we can continue to work actively towards the opportunities that these challenges are presenting.
- Have a clear understanding of council process, including the Blueprints, District Plan, projects and works allocated in the Long Term Plan and Annual Plan specific to the Raglan Ward, and how these align with Raglan Naturally decision making and planning.
Focus Areas

Focus Groups formed around eleven areas:

- **Education**
  Mātauranga

- **Local Government & Planning**
  Kāwanatanga a-Hāpori me te Whakatakoto Tikanga

- **Community Wellbeing**
  Te Oranga o te Hāpori

- **Natural Environment**
  Taiao

- **Business & Employment**
  Ngā Umanga me te Whiwhinga Mahi

- **Arts**
  Mahi Toi

- **Transport**
  Ngā Waka

- **Active Recreation**
  Ngā Mahi Whakahohe a Rēhia

- **Infrastructure**
  Ngā Pūnaha Wai

- **Youth**
  Rangatahi

- **Destination and Visitor Management (Tourism)**
  Te Ahumahi Tāpoi

On the following pages we have summarised the Focus Groups’ work and added the input from the wider community. (For further detail see the Focus Group reports, on our website.)

We received over 1400 ideas.

Many common themes or ideas are coming through strongly. Some are innovative and forward thinking and some are possibly controversial. Project ideas will need to be looked at more closely and prioritised in the implementation/action planning phase, with ongoing community consultation. The following pages set out:

- **Aspirations** – the overarching or main aspirations in this area
- **Pathways** – possible ways to achieve these aspirations
- **Most common ideas** from the wider community that came through the survey and town hall event
**Active Recreation**

Ngā Mahi

Whakahohe a Rēhia

**Most Common ideas/themes from community**

- More walkways & cycleways
- Swimming pool
- Recreation centre/sports facility
- Skatepark upgrade

**Aspirations:**

- We enjoy the natural environment through recreation in a sustainable way. Those involved in recreational activities help protect and enhance the natural environment and have an ongoing commitment to improving water quality in streams, harbour and ocean.
- Recreation is accessible to all
- Recreation is safe
- Sports are supported if they have minimal impact on the environment and other activities.
- We have suitable, safe facilities for sports teams, groups and individuals
- Active recreation supports better health and has a positive economic impact.

**Possible Pathways toward achieving these aspirations**

The following topics have been looked at, and Pathways to achieve active recreation aspirations have been provided on these topics: Surfing, soccer, tennis, basketball, walking, cycling. This is not representative of all sport and recreation groups and we welcome input from all.

- Really clean water, no more wastewater to ocean discharge. For pathways to support this see Infrastructure
- Manu Bay to be free from additional building development
- Manu Bay, in terms of commercial activities, is the place for surf competitions only.
- Surf school activities are kept to Ngarunui beach.
- Consideration for the Whaanga coastline to become an indigenous coastal surf reserve
- Contribute to the Waikato Regional Coastal plan review
- Transport services to beach and back for our local youth.
- Create a separate foil board zone to allow for separation from established surfing zones.
- Contribute to the Waikato Regional Council Navigation Safety Bylaw.
- Support the new surf code of conduct and ensure that signage is placed in surfing areas for education purposes.
- Form and sustain a tennis club that caters for all levels and ages
- Find alternative fields in the Whaingaroa area to give more options as football and other sports keep growing. Consider the airfield.
- Basketball – look at expanding mini court at Papahua. A full indoor court would enable local teams to play competitions and host tournaments.
- New Skate park so locals can continue to skate when tourists invade

“A pontoon out by the walk bridge We used to have one there years ago

“More dog friendly walkways

“New Skate park so locals can continue to skate when tourists invade

Physical inactivity costs the country around $1.3 billion a year, or 0.7% of GDP. In terms of Raglan ward’s 5,790 people, that’s about $1.9m a year. By supporting and promoting active recreation we work towards reducing that cost.
Arts
Mahi Toi

Through the arts we are able to communicate who we are as people and how ‘place’ influences our unique voice. Arts purpose – brings wellbeing, voice, uniqueness, social and cultural development.

Most Common ideas/themes from community

- Music
- Public art, including spaces
- Theatre
- Support the arts
- Dance
- Māori and cultural arts

Aspirations:

- Promote, support and encourage growth in all local creative industries including heritage and cultural art, Māori Performing Arts, music, visual art, craft art, dance, and theatre, street performance, film, photography, and literature
- Future planning for spaces
- Encourage and support youth in the learning and participation of the arts
- Increase visibility of arts
- All art forms are a contributor to local economy and tourism
- Marketing and promotion of the arts

Possible Pathways toward achieving these aspirations

- A large multi-space building (250+ capacity) for more performing arts classes and events including dance, theatre and music facilities.
- Support and design a designated indoor/outdoor space in the village for buskers, live musicians, street performance, theatre and dance performance.
- Community to support, encourage and promote Māori artists, musicians, theatre, kapa haka, dance and performing arts.
- Identify, create and design spaces in the village for public art, sculptures, cultural art, murals, installations and creative innovative art projects.
- Encourage, promote and support youth with all creative industries.
- Supporting and creating a strong foundation for learning music, arts, kapa haka, theatre and dance with students.
- Continue to support and promote Kōkiri Centre, Raglan Old School Arts Centre and Town Hall events, Raglan Community Radio and Tractor FM. Support and develop more community events and festivals.
- Local artists to create a unique brand to promote Raglan community and tourism.
- Recognising and supporting local self-employed artists and musicians contributing to local economy and tourism.
- Create and design a platform for promoting and publishing events and works by local artists, live music, dance and theatre productions, kapa haka and cultural performance.
- Community Music Board to encourage and support local music industry and funding opportunities.
- Supporting and developing Artist in Residency programmes.

Encourage art sector with support and facilities

Keep the art and music as strong focuses
**Most Common ideas/themes from community**

- Maintain the Raglan vibe of business (no big chains)
- Develop a Business Support Hub
- Employment and Training Tools and Opportunities for Locals and Youth
- Weekly Farmers/Produce Market with Affordable Goods

**Aspirations:**

- Raglan is a thriving “ecosystem” of sustainable businesses that support one another and are supported by the local community
- Employment and training opportunities for locals, including youth
- Local businesses liaising more closely with iwi, hapū and kaumātua
- Businesses working in line with Raglan Naturally

**Possible Pathways toward achieving these aspirations**

- Support for locals interested in starting a business, including: training, mentoring and identifying business opportunities
- Support for up-and-coming social enterprises and community co-ops
- Social framework and support network that provides a platform for businesses to grow
- “Shop Local” scheme and uptake from local community
- Manage business growth to ensure ‘big business/chains’ do not take over the community
- Create more awareness and support for community initiatives that provide services and goods for the community, e.g. Crop Swap, Tool Library, Community Gardens, etc.
- Establish a weekly farmers market that provides affordable produce and other goods
- Create youth training programmes
- Liaise with local businesses to develop internships for local students
- Regular updates from the business community about open employment positions or internships and volunteer opportunities
- Create opportunities for seasonal employment for locals, including youth
- Develop a tourism training programme for locals to gain skills in the hospitality and service industry
- Develop education and training pathways for locals, including youth
- Create a ‘Careers Fair/Showcase Day’ between the Raglan Business Chamber and local schools
- Support technology initiatives through infrastructure improvements which will allow for technical educational programmes and development of a future tech hub
- Expand collaboration between developers, locals, the wider community and council to encourage planned, sustainable growth
- Encourage businesses to contribute and support the community as time and resources allow
- Ensure community values and expectations are shared with new business owners and interested investors
- Establish and share a Raglan branding, in line with Raglan Naturally – so that businesses who choose to brand themselves using the name ‘Raglan’ in their business can be consistent with the character of Raglan when operating within the community and when promoting their product or service outside of the community. Keeping in line with the Raglan Naturally values, promoting a sustainable business model. Remembering that by using the ‘Raglan’ name, they are representing the Raglan community and what the community stands for and believes in.
Community Wellbeing
Te Oranga o te Hāpori

Most Common ideas/themes from community

• Access to a range of health services
• Mental health issues are a priority
• More support for older people & those with disabilities
• More support for people on low incomes
• More action on crime
• Healthy environment
• Creating culture of caring and kindness

Aspirations:

• Raglan has a community wellbeing hub fostering connectedness and access to wellbeing services
• Local healthcare services are holistic, accessible and affordable.
• Hapū and iwi have culturally relevant health and wellbeing services
• There is a strong focus on mental health support
• People have access to affordable and good quality food, water and housing as well as meaningful employment.
• Raglan has a strong identity as a safe and caring, age-friendly community
• Raglan celebrates and respects cultural diversity.
• Recognise that a healthy natural environment is essential for community health and wellbeing
• Arts and creativity and are valued as important aspects of wellbeing.

Possible Pathways toward achieving these aspirations

• We have a community hub that provides a space for groups and individuals to meet, find out about and access health and wellbeing services, and enjoy a range of creative activities such as a Blokes Shed.
• A community connector actively brokers connections for people who are isolated or lonely.
• Conventional and complementary health services are integrated and culturally relevant. Health and wellbeing services are available at Poihākena Marae or other suitable venues.
• Medical emergency services are available at night and in weekends.
• We start courageous conversations about mental health, drug and alcohol, family harm and suicide issues in Raglan.
• A health literacy programme is initiated to ensure that health information available is user-friendly, useful and accurate.
• Youth are educated and empowered to take responsibility for their health and wellbeing.
• We have a directory of local health and wellbeing services, including support groups and organisations.
• An audit of wellbeing support groups in Raglan is carried out and gaps are identified.
• Families are supported through the provision of excellent childcare services and parenting programmes.
• We bring back the shopping bus, and provide more transport support for the older people to get to appointments.
• We look at ways our community can support the police including community patrols.
• We engage with gangs to encourage dialogue, and look at how we can protect our young people.
• We research the presence and use of toxic chemicals in Raglan. We investigate ways to limit their use and mitigate their effects.
• Everyone has the opportunity to participate in environmental care and restoration, to grow food and/or access local produce.
• We promote community resilience initiatives such as Raglan Timebank and Crop Swap.
• We have regular community celebrations and activities that foster respect, caring, kindness and connection such as pot luck dinners, street barbecues and low cost family friendly events.

I like the idea of a community hub - experiment with different ways to connect

To thrive is to create a culture of inclusiveness and caring for everyone in our community - let’s focus on that

Connect services that can help the most vulnerable, using the skills of locals and providing a funding pool to pay for these
Most Common ideas/themes from community

- Protect local interests first
- Encourage off-season events and activities
- Create a cohesive, sustainable marketing message that is aligned with Raglan Naturally

Aspirations:

- Within ten years, Raglan will be widely recognised as the eco-friendly heart of New Zealand, and be a leading example of responsible and sustainable tourism.
- Encourage shoulder season events and activities that help support businesses through the winter months.
- Creating and supporting ‘sustainable’ visitor experiences.
- Ensure local interests are kept at the forefront of future visitor growth.
- Create a cohesive marketing message, focussed on sustainable tourism, a ‘how-to visit Raglan’ guide.
- Develop and align marketing with Raglan Naturally.
- Develop a ‘Raglan Customer Charter’ that underpins exceptional customer service to all customers regardless of the business.

Possible Pathways toward achieving these aspirations

- Encourage positive visitor behaviours (i.e. disposing of waste in the correct bins, encouraging the BYO, bring your own, culture).
- Provide more thorough information for visitors in regards to freedom camping, paid accommodation, public facilities, cafe and shop hours, etc.
- Ensure the marketing of Raglan aligns with Raglan Naturally and create a cohesive marketing message across all promotional outlets.
- Maintain the character of the town, keep the Raglan vibe alive.
- Work with local community groups to develop educational and sustainable visitor experiences.
- Ensure a range of authentic experiences that help to showcase our people, our landscape, our stories, our history, our place.
- Create a more connected experience where visitors and locals alike can easily walk or ride between community destinations (work alongside WDC to further develop bike pathways and walkways around the community).
- Work with the business group and the Raglan Business Chamber to develop hospitality and customer service training programmes for locals, including youth.
- Work with the business group and the Raglan Business Chamber to communicate sustainable tourism business practices to new and interested tourism business operators.
- Work with the business group to establish and share a Raglan branding, in line with Raglan Naturally – so that businesses who choose to brand themselves using the name ‘Raglan’ in their business can be consistent with the character of Raglan when operating within the community and when promoting their product or service outside of the community. Keeping in line with the Raglan Naturally values, promoting a sustainable business model. Remembering that by using the ‘Raglan’ name, they are representing the Raglan community and what the community stands for and believes in.
- Develop and showcase a sense of localism, e.g. ensure visitors know when local produce is being used in cafes or sold in shops.

It would be great to share more stories of the people and past of this place. Public weather resistant signage would be wonderful to educate visitors and instill pride in folk who call Whaingaroa home.

It would be great to share more stories of the people and past of this place. Public weather resistant signage would be wonderful to educate visitors and instill pride in folk who call Whaingaroa home.

Educate our friends and travellers who visit about: reducing; re-using and upcycling.

Create a cohesive, community-minded marketing message that all tourism operators and promoters can use.

Educate our friends and travellers who visit about: reducing; re-using and upcycling.

Create a cohesive, community-minded marketing message that all tourism operators and promoters can use.
Most Common ideas/themes from community
- Raglan Area School, support and ideas
- Training in sustainability, enviro, permaculture, practical life skills
- Te reo and Te ao Māori
- Intergenerational learning
- Apprenticeships

Aspirations:
- Education is a core value of Raglan Naturally – we are a learning community
- Provide early childhood education for all children in the community
- Provide support for families to look after younger children at home.
- Children are safe in our community and are aware of safety, learning to assess risk.
- Children are immersed in their community: people, environment, history
- Encourage bilingualism/biculturalism for our young people
- To be bilingual in our education centres and community.
- Use Te Whāriki (ECE) and the NZ Curriculum to inform learning and teaching in our community
- Provide environmental education
- Provide choice and a variety of education providers for our families to choose from
- Supporting community to access diverse options – transport, fees subsidies
- Schools are future-focused and look at the big picture. They provide the skills our young people need to survive in an unknown future.
- Develop the holistic wellbeing of our young people
- Meet the needs of the whole whānau. Support whole system – whānau, families, children and their needs.
- Create a supportive education network in Whaingaroa

Possible Pathways toward achieving these aspirations
- Education for parents around child development and looking after young children at home
- Support education around bullying and education for children and parents on safety.
- Children are immersed in their community through: place-based education and making links with local expertise; building connection and support with the community; growing awareness of things already happening in the community, things that are happening in the home - part of the community kaupapa; learning our shared history and through what’s already happening in ECE.
- Provide opportunities for our children to be bicultural and bilingual: support our community based programme for fluent Te reo Māori speakers to be part of learning in our learning centres; explore resources to support this; support local experts; place-based education; learn about the expertise we have in regard to te ao Māori and korero Māori; learn about what teacher training is needed to change the status quo.
- Support environmental organisations in our community eg. Karioi Kids, Enviro centre
- More connection with local experts, place-based education, Education Outside the Classroom and EOTC providers.
- Schools and early childhood centres work together for sustainability of schools/kura and benefit of all
- Accessible transport to and from schools
- Public health nurses
- Sexuality education
- Look at the support systems we have in place around mental health
- More affordable permaculture courses
- Support community gardens
- Support the Enviroschools programme
- Support Whaingaroa Environment Centre to run educational programmes
- Coordinate a monthly education network meet up

Teach students/people how to transform vehicles - cars, bikes, scooters etc into electric vehicles at low cost.

Why is education structured by generations? What about inter generational learning?
WRAP, Whaingaroa Raglan Affordable Housing Project group have been leading a project looking at the housing and affordability issues in Raglan. They have undertaken research, a community survey and town hall event to understand more about the housing situation here. WRAP will continue to work towards community consultation and co-designed housing solutions. A specific Raglan Naturally focus group was not set up for Housing as WRAP is doing this work.

Housing is connected to and affects many of the Focus Areas within Raglan Naturally. Housing concerns have been raised in a few of the Focus Group conversations, including, Youth, Community Wellbeing, Business and Employment and Destination and Visitor Management.

Our housing issues and concerns have featured very strongly in the community survey responses. Raglan Naturally will work closely with WRAP to integrate their work with our community planning.

We invited WRAP to share their findings through Raglan Naturally. See below for community aspirations and possible pathways that have come up through the WRAP project so far. See Raglan Naturally website for the two recent WRAP reports, ‘Householder Survey Report Summary’ and ‘Raglan Housing Analysis’.

**Most Common ideas/themes from community**

- Air BnB controlled
- Affordable housing
- Social housing
- Bed tax
- Tiny homes

**Aspirations:**

- Community consultation led design for housing solutions
- Affordable housing development for Raglan
- Supporting and enabling other communities by sharing the Raglan experience, tools and information
- Advocating at regional and national level for recognition of the small community housing access and affordability issues

**Possible Pathways toward achieving these aspirations**

- Community-wide consultation hui in 2019 to reach out to those wishing to be part of a solution
- Continued representation on the Waikato Plan Housing Initiative working group
- Continued partnership with the Waikato District Council housing focus – see WDC Blueprint
- Continued partnership with key sponsors WEL Energy Trust Vital Impact (Housing) Grant
- Continued partnership with Raglan Community House, Raglan Chamber of Commerce and Raglan Community Board
- Continue to build relationships with landowners interested in affordable housing initiatives
- Continued connection with community land trust and affordable housing provider groups in Waikato/NZ
- Charitable trust structure for WRAP to enable recognition as charitable social enterprise
- Seek funding opportunities from central government and other investors
- Construct an advisory group of technical housing experts to input on the basis of community housing preferences
- Present the WRAP/Raglan story at housing hui with the view to advocacy for small communities

"Build tiny homes. I can imagine a wee village of tiny homes."
**Most Common ideas/themes from community**

- Support for Plastic Free Raglan, recycling, reducing litter
- Handle wastewater more ecologically
- Beautification, maintenance
- Alternative energy
- Public toilets, fountains, dog bags, nappy change

**Aspirations:**

- The impact on the natural environment and ecology must be the prime consideration in all infrastructure decisions.
- Infrastructure must continue to be upgraded to reduce the impact on the natural environment and ecology.
- Stormwater runoff must be filtered through wetlands, roadway runoff must be filtered through swales.
- Treated wastewater must be discharged through a wetland prior to discharge.
- The impact of sea level rise must be planned for now as flood events are happening already.
- Refuse must be preferably eliminated, or minimised by development of a circular economy.

**Possible Pathways toward achieving these aspirations**

- Include the new recommended sea level changes in all infrastructure and planning decisions to reduce the cost to future residents to respond to climate change.
- The new wastewater disposal to harbour consent in 2020 needs to be of shorter duration and have hard deliverables to stop this activity before the next consent renewal.
- Wastewater from the treatment plant post UV stage should be processed through a man made wetland to a water quality suitable for shellfish gathering and swimming prior to disposal.
- Reinstate the anaerobic ponds that process the incoming wastewater and outfall membrane plant backwash to produce gas that could run a generator to offset treatment plant electricity use.
- Install floating solar PV systems on the pond to reduce the growth of algae and to offset treatment plant power use.
- Install filtration on the potable water prior to UV treatment to reduce the risk of an earthquake causing potable water treatment outage.
- Continue to support and expand the community-based Xtreme Zero Waste team reduction in waste generation and develop a circular economy, support expansion of Plastic Free Whaingaroa.
- As the volume of greenwaste increases explore the installation of a biodigester to produce gas for electricity generation.
- Lobby government for mandatory product stewardship.
- Develop a community power scheme, and encourage residential solar PV as well as electrification of restaurants, transport and businesses.
- Continue to place power and telephone services underground to reduce visual clutter.
- Increase roadside tree planting and beautification.
- A community-led monitoring group that ensures the WDC planned maintenance in the CBD, on the hard surfaces and street furniture/assets is fit for purpose and that the work carried out is completed to a good standard. Monitoring maintenance outcomes adds to both the practicality and beautification of Raglan’s assets.
Local Government & Planning
Kawanatanga a-Hāpori me te Whakatakoto Tikanga

Aspirations:

• Regular community engagement and participation to ensure every part of our community has a say in governance and planning issues affecting them.
• Explore what self-governance could look like in Raglan. Explore increased community autonomy and decision making and more control at the community board level.
• To be a transparent and inclusive community that is knowledgeable about and involved in the planning and local government for our area.
• Strengthen the community’s relationship with whānau, hapū and iwi towards a true partnership as per te Tiriti o Waitangi.
• Raglan Naturally Plan – our ‘living’ community plan is representative of our wider community and is there to help guide the development of this place.
• Raglan Naturally is an ongoing process, managed by our community and is part of the connection to the Raglan Community Board. Raglan Naturally is well governed, sustainable, supported by all stakeholders and is able to keep the plan alive and source additional funding for community projects.
• All parties (community, iwi and hapū, local organisations, Councils etc) come together and work towards cohesive and community driven development of Raglan and our rural communities. This would include town centre planning, possible Structure Plan and would take into consideration the key challenges for our communities.
• More localised consultation/planning/decision making and implementation
• We have effective elected individuals as councillor, on the community board and steering committees. These people are diverse and representative of the voices in our communities.
• We understand and are confident in the rates spending by councils for Raglan and the rural communities.

Possible Pathways toward achieving these aspirations

• Redistribution of power and authority from WDC to Raglan Community Board. An example is that the community board could manage a Town Development Fund. This could be made up of funds from Harbour Board Leases, boat ramp and parking charges etc.
• Extend Raglan Community Board boundary to include the whole of the Raglan Ward, this includes our rural communities of Ruapuke, Te Mata, Te Uku, Waingaro and Waitetuna
• Waikato District Council sets aside funds to train and introduce its members to their Community Board responsibilities under the Local Government Act
• Raglan Community Board to review meeting and workshop times to build inclusivity and participation. A forum is established, as part of community board meetings, to discuss relevant strategy issues
• Continual community learning, engagement and participation through events, summits and agenda setting workshops
• Administration arm attached to the RCB to improve community engagement from all groups, coordinate community input/interest and communicate data/ findings. Monitor development consents. Ensure transparency
• Prioritising infrastructure via local consultation
• RN and RCB to continue working with iwi and hapū to develop a relationship that is based on the principles of Te Tiriti o Waitangi and is equitable and inclusive
• Consider Raglan rates to benefit local area. Rates review.
• All local boards are made up of elected community members and include iwi and hapū
• Seek support from the Raglan Community Board and councils to first, ensure we understand our key challenges and second, ensure that these are taken into account in all strategic planning. One of these being ‘loss of Raglan identity’ and ensuring Raglan keeps it ‘small town’ feel.
• Understand the value of a structure plan for Raglan and decide if this is what we need
• Raglan Naturally continues to work closely with WDC in their Blueprint planning. Raglan Naturally and the Raglan Blueprint come together and feed strongly into the next Waikato District Council Annual and Long Term Plans and District Plan.
• The community decides on Raglan Naturally’s ongoing role, governance structure and sustainability. Action is taken to set this up.
• Raglan Naturally works with the community to create a Raglan Naturally implementation plan with priorities for action.
• Regional Council’s Coastal Plan review. Be informed and involved.
• ‘West Coast Harbours’ Treaty Settlements. Learn about and support iwi and hapū.
• District Plan Review. Be informed and involved. RN to follow through on its submission to the District Plan.
• Wainui Reserves Management Plan Review. RN and Raglan Community Board to work with WDC to ensure an inclusive and transparent process. RN and RCB support participation from the community.
• Learn about the roles of Councillor, Community Board and Community committees. Elect community members who will be effective, are diverse and representative of the voices in our community.

Most Common ideas/themes from community

• Autonomy from WDC
• Community engagement
• Well considered planning and development
Natural Environment Taiao

**Most Common ideas/themes from community**

- Protect flora & fauna
- Pest control
- Tree planting
- Control of weeds
- Community gardens & food forest
- Remove litter from beaches & other public places
- No spray
- Environmental education

**Aspirations:**

- Protection and enhancement of our natural areas and wildlife (land and sea).
- Environmentally conscious development
- No pollution (land and sea)
- Community and individual ownership of environmental problems.
- Climate change action.

**Possible Pathways toward achieving these aspirations**

- Accessible green spaces including mixed ability access ways (i.e. pushchair, wheelchair, flat options)
- All harbour catchment waterways are appropriately fenced and riparian buffer zones planted in native species
- All plants, animals, fish and shellfish are managed to protect the resource for future generations to enjoy their use at the same levels as today, and if possible restore stocks to better levels.
- Community gardens and food forests. Fruit trees in public spaces.
- Community is aware of what is going on, and empowered to have their voices heard
- Continue sand dune planting and protection to act as natural buffers for sea-level rise and coastal erosion
- Continue to be a national global leader on environmental issues
- Continued priority and resources for waste management, moving towards zero waste.
- Eco-tourism
- Environmental education for all ages (adults and children)
- Harbour-wide development consents taking into account changing sea levels
- Landowners implementing land use practices that protect the soil and water
- More local food production on a range of scales (backyard to commercial)
- More restored forest mimicking Wainui Bush Reserve
- No storm water or wastewater discharge to sea
- Planting of native trees
- Reduction of plant and animal pest species
- Removal of pest plant species (public and private land)
- Restoration of wetlands
- Sound environmental urban and rural planning
- Subdivisions in keeping with low key housing and focused on ‘sustainable backyards’
- Video for tourists and new residents – ‘this is how we do it in Raglan’ – inspiring habit change for environmental protection.
- Walking track connecting township to Whale Bay – connects people to the environment, encourages people out of cars
- Waste water treatment plant upgrade – land-based system, circular economy

“Plant more native plants and set traps for pests to help our native animals”

“Manage weeds without spraying”

“Fruit trees in all parks and reserves”
Transport
Ngā Waka

Most Common ideas/themes from community

- More cycling
- Route to coast for cycling/walking
- Town square/pedestrianise CBD
- More footpaths
- More (or less) parking
- Shuttle bus around Raglan
- More country walking
- Reduce traffic speeds
- More buses
- Upgrade Single Lane Bridge (some to keep, some to widen)

Aspirations:

- To provide for people and goods to get about in ways which help provide worthwhile jobs, minimise impact on the environment and other activities, promote equal access to transport, whatever age, state of health, or wealth, and improve health and safety.

To achieve this:

- Walking and cycling are supported; they provide transport solutions, have a low impact on the environment and encourage exercise to improve health. They also attract tourists in a manner which minimises their adverse impacts on the area.
- Buses are supported; they provide transport for all, complement walking and cycling and are safer and need less space and fuel than cars.

Possible Pathways toward achieving these aspirations

- encourage cycling and walking by providing safe, convenient routes. Including town to the beaches, footpaths around town, country walking paths
- create a town square and/or make the CBD more pedestrian friendly, including Cliff Street
- shuttle and other buses in Raglan and linking to Hamilton, residential, tourist areas, etc
- reduce traffic speeds in town and on the most dangerous roads

These will need to be brought together in cohesive planning of sustainable transport, including walking, cycling, pedestrianisation, public transport (buses and possibly ferries), speed limits, charges for parking (probably with passes for locals) and other ways to reduce parking demand in crowded areas.

All of these were in the 2001 Raglan Naturally Plan, which indicates that they have been consistently supported by the Raglan community.

Build a cycleway/walkway from town to Manu Bay. This road is getting used more and more this road and becoming very dangerous

Getting people out of their cars will have major benefits on issues such as parking and health
Youth Rangatahi

Support the young people to create a youth hub

Indoor sports facility, indoor youth facility, free koha, table tennis, pool tables, air hockey, swim pool

Every young person transitioning to work or study (eg Otorohanga’s policy)

Most Common ideas/themes from community

• Community youth recreation and/or learning facility
• Education & employment opportunities for youth
• Support services for youth (health, education, etc.)
• Facility & infrastructure upgrades
• Community gym with indoor pool and courts

Aspirations:

• Creating opportunities for education and employment.
• Creating opportunities to engage with the community.
• Create a space that is specifically for youth.
• More support for sports, recreation and adventure.
• More connectivity and infrastructure.
• Housing opportunities for youth.
• Health and wellbeing focus.

Possible Pathways toward achieving these aspirations

• Mentoring, internships, massive open online course (MOOC), career expos, connect schools with businesses to build on employment skills
• Identify youth leaders and influencers, mentoring, take the community to the youth, create platforms for them to share their ideas and a forum where youth issues can be discussed.
• A youth hub/centre for youth, dedicated space for youth to feel safe and unjudged.
• More opportunities for participation in arts, sports, recreation and adventure and other activities. Make information available about what groups exist for youth to participate in, support for travel outside of Raglan like a youth van, mentoring for those that have special interest areas and show passion. If we can show that there is demand for a dedicated space we can present a case for a dedicated recreation centre.
• Make areas of Raglan accessible for youth who don’t always have access to a car or ride for example transport services to beach and back. More walkways and cycleways and upgrade existing footpaths for safety and usability.
• A memorandum of understanding with local rental property providers that allow for particular properties to be put aside for youth.
• Social housing opportunities.
• Promote active, healthy and holistic lifestyle. Mental health support. Make sure information is accessible.
• More extra curricular programmes for youth including holiday programmes.
• Tuākana tēina relationship building
• Digital and general business skills programme for youth
• Connection between schools to share information and support each other e.g. sharing resources.
• Investment in Raglan Area School to provide more options for students.
• Community recreation facility or hub with indoor swimming pool, basketball courts, meeting rooms
• Don’t put restrictions on youth who contribute to keeping this town ‘vibrant’. Champion youth doing positive things
• Environmental innovation hub
• Skatepark upgrade, skate/bike paths with features. Remove ‘no skate’ signs

Support the young people to create a youth hub
Moving forward to next steps

What is the ongoing role for Raglan Naturally in our community?

Next steps
The Raglan Naturally Team are really excited about the potential for it to grow, evolve and be kept alive. A useful next step would be to design and facilitate a number of workshops, both with those who have been closely involved in the process to date and the wider community. The aim would be to continue the dialogue with community, iwi and hapū and local organisations to:
• Review and evaluate our process and learning, measure the impact, celebrate our work together; and
• Decide on the ongoing role of Raglan Naturally, the governance structure and what support/funding will be needed to ensure this work is sustainable.

Aspirations for Raglan Naturally
Since the Raglan Naturally plan was first published in 2001, the process has not been continuous. Therefore, we are aspiring towards:
• An ongoing process, not just a plan and handover with some ideas around implementation
• Greater emphasis on the continued development and evolution of the process for community-led and strengths-based development to be effective and sustainable
• Continued learning and capability building within our community to:
  ◊ better understand community-led approaches and their contribution to positive change
◊ learn about the treaty in our local context, and about te ao Māori, tikanga Māori and te reo Māori
◊ share and spread local stories, experience and learning so that everyone benefits
◊ amplify the impact of locally-led change by connecting people, places and through systems change
• A balanced focus between systemic change and projects on the ground
• Strong partnership with council to support ongoing community-led development work

These are possible tasks/objectives:
1. Periodically reviewing and refreshing the Raglan Naturally Plan driven by community mandate, and overseeing and supporting the implementation of the priority objectives established in the plan
2. Te Hanga- applying Te Tiriti o Waitangi in the context of Raglan community development, working in partnership with iwi and pan-tribal organisations, while respecting tino rangitiratanga.
3. Ensuring all members of the various communities in Raglan have opportunities to have input and be engaged in decision making on the plan, to maximise ongoing community support and involvement in its implementation
4. Working collaboratively and

Community-led
The need for ongoing community-led development, at least to the current level at which Raglan Naturally has been working, has been voiced by our community as critical for future planning and development. We can say that this further supports the theme of ‘community working together’.

Objectives
There is potential to create a really exciting, successful community organisation to advance coherent development in Raglan that can be an example to other communities in our district and further afield.

These are possible tasks/objectives:
1. Periodically reviewing and refreshing the Raglan Naturally Plan driven by community mandate, and overseeing and supporting the implementation of the priority objectives established in the plan
2. Te Hanga- applying Te Tiriti o Waitangi in the context of Raglan community development, working in partnership with iwi and pan-tribal organisations, while respecting tino rangitiratanga.
3. Ensuring all members of the various communities in Raglan have opportunities to have input and be engaged in decision making on the plan, to maximise ongoing community support and involvement in its implementation
4. Working collaboratively and strengthening partnerships with all key Raglan community and business organisations, and all sectors of local and central government, especially Waikato District Council and the Raglan Community Board
5. Whakawhānaungatanga - creating opportunities for Raglan’s communities and organisations to connect and learn from each other
6. Fostering and developing community leadership, organisational capacity, sustainability and resilience through training resources and research change
7. Supporting, promoting and overseeing the use of the “Raglan Naturally” brand for projects compatible with the plan
8. Seeking funding, policies and resources which promote the objectives of the plan and community-led development
9. Documenting, publicising and promoting Raglan Naturally values, objectives and processes where appropriate to learn from and/or assist other communities
Your ideas for the future success of Raglan Naturally from the survey

- Ongoing communication (social media, Raglan Chronicle, website, regular update, how to get involved)
- Raise awareness and keep visible and active to maintain profile
- Keep consulting
- Keep up the good work!
- Be inclusive and diverse to encourage participation from the community
- Tangata whenua are essential. Needs funding and ongoing support from the wider community
- Build strong relationships with community, Iwi, WDC, RCB, and other groups
- Strategically plan and put a governance structure in place
- Keep refreshing the plan
- Support local initiatives, i.e., Xtreme, WEC, Karioi project
- Needs a permanent coordinator. Help and support from Council
- Council needs to work with RN
- Involve Youth
- Deliver on projects
- Celebrate success
- Make sure that we hold onto our history and remain aware of what we have already
- Have strong vision and values

Who will implement the plan?

There are many ways that the plan will be implemented. These include:

Some ideas, or projects, can be undertaken locally by the community in a form of ‘working bees’

Some are probably best undertaken by a community organisation with a speciality in that area, possibly with volunteer assistance

Some may be undertaken in a joint effort between the council and the community

Some possibly larger projects, will be the responsibility of the council to take action. These will be planned for through the Blueprint and the next Long-Term Plan.

Some will probably best be implemented by a government agency or department.
How will we prioritise projects and create an Action Plan?

The Raglan Naturally team will take the time to create an inclusive, community-led prioritisation process. We need to decide on the criteria for prioritising and will look at alignment with iwi and hapū planning, community values and aspirations, ‘quick wins’, short term projects, stepping stones to long-term goals, timing, impacts, costs, who would take responsibility to implement, current projects and capacity in community organisations, and councils’ planning processes. We will need to feed strongly into the next council long-term planning process, 2020-2021.

Looking at the main ideas from the community-wide engagement will be helpful as it shows what is important to the community and where the energy is for change. We also need to take into consideration things that were not mentioned much, but which may be key challenges or opportunities (e.g. climate change, implementing the Treaty of Waitangi, equity, mental health and suicide). We also need to be aware that there are voices we may have only heard a little from, or not at all.

Once we have set our criteria, we can run all the ideas and possible projects from community and Focus Groups through this lens and produce a draft Action Plan, which we can bring back to the community for feedback. One of our first priorities might be to bring together key stakeholders (including iwi and hapū, the wider community and councils), facilitate strategic planning sessions and work toward the creation of a Raglan Structure Plan to sit alongside our Raglan Naturally Community Plan.

For more Information

We welcome your feedback on the draft

Contact: Gabrielle Parson and Anna Cunningham
Contact detail: raglannaturally@gmail.com
Website – raglannaturally.co.nz for the draft online, for more detail on Focus Areas.
Please note the Focus Group areas on website have not been updated since this draft.

Have we got it right?
Is there anything we have not covered?
Please visit the website or email us to feedback.

How to be involved

• sign up to newsletter,
• share RN with friends, family and networks,
• provide feedback on the draft,
• connect with a focus group, through our email
• let us know what project or area you would like to lead or be involved in.
Appendix i
Raglan Naturally survey questions

DEMOGRAPHIC INFORMATION
this will help us understand who is filling out the survey and how representative it is of our community.

* Which ethnic group do you belong to? Tick the space or spaces which apply to you.
New Zealand European, Māori, Samoan, Cook Islands, Māori, Tongan, Niuean, Chinese, Indian, other eg. Dutch, Japanese, Tokelauan

*Age: Please let us know what age band you fit into by circling the one that applies to you.
Less than 18 years, 18–24 years, 25–34 years, 35–44 years, 45–54 years, 55–64 years, 65–74 years, 75–84 years, 85 years or older

*Which community or communities are you part of: Please circle those that apply to you
Raglan, Ruapuke, Te Mata, Te Uku, Waitetuna, Ohautira. Other, please say which.

learn / akona
Let’s learn about ‘Here’. Let’s learn about ‘us’.

(1) What do you love about ‘this place’?
(2) What’s one of your favourite experiences ‘here’?
(3) What are 2-3 words you feel describe the character of ‘this place’?
(4) What do you see as the strengths in ‘our community’?

reflect / whakaarotia
Let’s reflect on where we are now and where we are heading.

(5) What change(s) have you noticed ‘here’?
(6) How are you experiencing the change(s) in your day-to-day life?
(7) Is there anything you feel concerned about with regards to ‘this place’ and ‘our community’?
(8) What do you think are the main challenges for ‘our community’?

contribute / kōrerotia
Share your ideas, insights and aspirations.

(9) What it would look like to you if ‘this place’ is thriving? (environmentally, socially/culturally, economically, politically)
(10) What could ‘we’ do to help ‘this place’ thrive?

take action + create / kōkiritia + auahangia
Let’s take action and create a community plan with solid foundations so we can continue this journey together.

(11) Do you have ideas for projects or initiatives?
(a)
(b)
(c)

(12) Who could take ownership or help make these projects/initiatives happen?
(a)
(b)
(c)

(13) What are the key opportunities for ‘our community’?
(14) When thinking about our future and aspirations of how we might work together as a community and, when thinking about what values we could hold...
what are some words that come to mind?
(15) Raglan Naturally aspires for the community to lead the development of this place. We will keep evolving Raglan Naturally and this means keeping it up-to-date, visible and active. We will need to have a robust management plan in place and an outline of how we will get things done. Do you have any ideas about the future success of Raglan Naturally?
(16) Anything else?
Would you like to be involved and kept up-to-date? If so, please leave your contact details on the back page.

DEFINITION OF TERMS:
‘Here’ and ‘this place’ refer to both the people and the land.
Raglan Naturally includes the whole of the Raglan Ward including: Raglan, Te Mata, Ruapuke, Te Uku, Waitetuna and Ohautira.
‘Our community’ and ‘our communities’ refer to the community or communities you are part of within the Raglan Ward.
‘Us’ and ‘we’ refer to all who are a part of the above community or communities.
Appendix ii
Raglan Naturally Survey demographic data
Well, it’s home. It’s something that if you live here you know, you just know.

When you go away, as soon as you come over the deviation, you see the maunga, you see Karioi and you sort of let out a breath of gratitude that you’re home – that you’re being drawn back.

There’s all sorts of things that make this place what it is. The mountain, the seas, the whole environment, the energy of this place.

Because I’ve lived here most of my life, it’s also the close connection with everybody as well.
